

## *The Story of Fatima continued ... The Miracles of the Sun presented by the Men of St. Elizabeth*

This is the second part of my story of Fatima, the miracles of the sun. This is not just one miracle! This is an amazing event that happened on October 13, 1917, in front of 70,000+ people, critics, believers, news people, and many others. It was also seen hundreds of miles away. Many of you had grandparents who were alive then. If you're asking, why don't we see miracles today, keep reading.

### *Part II: The Miracle(s) of the Sun*

Our Lady told Lucia that she would show the world a miracle on Oct 13, 1917, along with Her message to the world. She told the children; the miracle would have been more spectacular had they not been kidnapped by the Magistrate in August so the children would miss Our Lady's appearance in the field.

On October 13, Our Lady made Her last appearance. It had been raining for days prior to the 13<sup>th</sup> and on that day it continued raining at the Cova da Iria, The field was muddy, and over 70,000 people came to see the miracle promised by Our Lady. When She appeared to the children, the sky cleared, and the sun became as pale as the moon. That is when She finally revealed to them that She was Our Blessed Mother and told the children to continue praying the rosary every day because Our Lord is offended by the sins of the world. Then St. Joseph appeared holding in his left arm the Child Jesus. Saint Joseph made the Sign of the Cross three times over the world, blessing the world. As Saint Joseph did this, Our Lady stood to the right of the sun, dressed in the blue and white robes of Our Lady of the Rosary, then appeared in purple robes of Our Lady of Sorrows, but without the sword, and finally appeared to Lucia in all Her ethereal brightness, clothed in the simple brown robes of Our Lady of Mount Carmel.

While the children viewed these heavenly visions, the 70,000 plus people (and people as far as 100 miles away) were overpowered by the miracles in the sky. The sun had taken on an extraordinary color where you could easily look directly at it without it hurting your eyes. It seemed to be continually fading and glowing in one fashion, then another. Then the sun stopped and started dancing in the sky and then seemed to loosen itself from the sky and fall upon the people. As the sun hurled itself towards the earth in a mighty zigzag motion the people cried out in terror. Suddenly, the sun swerved back to its orbit and rested in the sky. Amazingly, the ground and everyone's clothes were now completely dry.

To this day people still try and explain all of it away. Even when we ask for miracles, we are too proud to see them. Listen to Our Blessed Mother, take up your cross and pray the rosary.

### *Next, the children*
