

Thank You!

*Last week our food pantry received 12 cans of Nutramigen formula. Shortly after we received an urgent request from a family with twin babies with severe food allergies. They were having a hard time finding this formula in the stores. We were able to share these cans with the family and they are so grateful and relieved. This is the letter they sent us:*

Dear Formula Angel,

Thank you very much for the formula. We are so grateful. We have twins that were born prematurely and have had many issues with allergies. Nutramigen is the only formula they can drink safely. We are tremendously grateful. We don't know what we would do without your generosity and kindness.

Family of Twins
